

# Green World Path

**GrowTowers**  
Maximum growing  
results from minimum  
growing area!

## Limitless

GrowTowers are a stackable growing system which allows you grow 10X more per foot of floor space. The growing potential is limitless.

## Eco-Friendly

GrowTowers have minimal impact on the environment. There's no harmful run-off of pesticides, herbicides or fertilizers keeping the aquifer clean and pure.

## Pathogen-Free

Unlike styrofoam pots, GrowTowers are not porous and resist pathogen growth ensuring a healthy soil for vibrant plants.

## Grow Anywhere

GrowTowers feature a unique, extensible design that can be easily adapted for use in every growing environment from greenhouses to your backyard patio.

## Durable

GrowTowers are constructed of a heavy duty recycled plastic with a U/V protection to withstand harsh growing environments. Built tough to last for years and years!

## Versatile

GrowTowers are unique in that they work great for hydroponic soilless growing, or you can use your favorite potting mix for fantastic results.

## Go Green!

Green World Path also manufactures a complete line of innovative organic and sustainable products that fertilize, protect, and reduce watering needs for anything that grows. We offer over 30 products to suit almost any growing need. Green World Path has expert advice backed by 40 years in the green industry.

With all that Green World Path offers there's never been a better time to go green! Give us a call today.
